

JENNY BLOCK: WEDNESDAY JUNE 4

JENNY BLOCK describes **OPEN: Love, Sex, and Life in an Open Marriage**. Jenny Block was the average girl-next-door, a suburban wife and mother for whom married life never felt quite right. Deeply in love with her husband but unsatisfied with their sex life, Block didn't believe her marriage was working – but also didn't believe in cheating. **OPEN** tracks the rocky road from husband and wife to husband, wife, and others,

and is an intimate look at one woman's experiences in finding happiness for herself and her family with honesty, love, and commitment. Block brings an eye-opening perspective on polyamorous relationships. **7:00 in the store**
